**Shona Sculptures**

The Shona people of Zimbabwe are renowned for their highly skilled and expressive sculpture. Their art is deeply rooted in the spiritual and social life of the people. The Shona people are known for their intricate carvings of human figures, animals, and abstract forms. The Shona people are also known for their use of natural materials such as stone, wood, and bone. The Shona people are also known for their use of traditional techniques such as carving and casting. The Shona people are also known for their use of traditional motifs such as the sun, the moon, and the stars. The Shona people are also known for their use of traditional colors such as red, white, and black. The Shona people are also known for their use of traditional patterns such as zig-zags and diamonds. The Shona people are also known for their use of traditional symbols such as the sun, the moon, and the stars. The Shona people are also known for their use of traditional motifs such as the sun, the moon, and the stars. The Shona people are also known for their use of traditional colors such as red, white, and black. The Shona people are also known for their use of traditional patterns such as zig-zags and diamonds. The Shona people are also known for their use of traditional symbols such as the sun, the moon, and the stars.

Shona Sculpture

Our Visit included viewing the special exhibit – Christmas in Africa, the museum’s collection of Christmas Crèches and their permanent exhibits.
